

PURPOSE OF THE PROGRAM

The course aims to develop an understanding of the underlying concepts of Corporate Governance, business ethics which are relevant to the contemporary business environment. It is designed to foster candidates' understanding of the ethical influences on economic, financial, managerial, and environmental aspects of business. The course further aims to develop a candidate's ability to critically analyse ethical issues in business. This course reviews different regulatory processes essential to the understanding of the principles of corporate governance.

PROGRAM OUTLINE

The concepts, essential principles, and stakeholders of corporate governance
Corporate Social Responsibility, citizenship and performance
Board and committee functions and structures and company officers' training, induction, and behaviour
Corporate governance: background and regulations
Principles of good corporate governance and corporate disclosure requirements • corporate governance disclosure in practice
Future directions for corporate governance and considerations in corporate decision-making

BENEFITS

Corporate governance deals with the complex set of relationships between the corporation and its board of directors, management, shareholders, and other stakeholders. In the recent years, the regulators and legislators have intensified their focus on how businesses are being run. They are endeavoring to create a template for new corporate governance and disclosure measures, which is beneficial for both the stakeholders and controllers.
